The refined 100% electric crossover. An exhilarating electric experience

Electricity can still enlighten us more. The Nissan ARIYA brings you into the future right now, with the highest level of Nissan performance, design and technology. ARIYA is also about fitting into your life, offering many choices including battery capacity, range and two-wheel or all-wheel drive – so you can enjoy next-level control and confidence.

[Introduction](#) | [Exterior design](#) | [Interior design](#) | [Technology & Performance](#) | [Style & Accessories](#) | [Personnalisation](#)

[Page 1](#) | [Page 2](#)

Your intelligent, connected, intuitive drive

Step into the world of ARIYA, and you'll never want to look back. More than a refined 100% electric crossover, ARIYA embraces excitement, comfort and relaxation.

Power, redefined

Drive smoothly and quietly with electric power on tap. Go the distance with ARIYA's 63kWh or 87kWh battery options, and go confidently, thanks to e-4ORCE⁽¹⁾, a unique new all-wheel drive system that takes EV capability to new heights.

Connectivity, recharged

Command your digital world - your compatible devices and smart home - using your voice. Swipe your navigation to have it in front of your eyes, or touch the ARIYA's subtle yet elegant controls with haptic feedback. ARIYA invites you to interact with your vehicle in a whole new way.

Assistance, enhanced

Driving should have always been this easy. Relax, and let ARIYA assist you through stop-and-go motorway traffic, around slight curves, and even staying in lane. Or sit back and let ARIYA take you into your next parking space. This is what it's like to have great technology on your side.

(1) e-4ORCE is only available on 87kWh derivatives

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply.

For terms and conditions relating to Nissan technologies, please contact your Nissan dealer or www.nissan.co.uk/techterms

Features available depending on version, as standard or only as option (at an extra charge).

Let your ARIYA stun the world

Wow them with super-thin LED headlamps and signature light blades – futuristic details that are mirrored on the inside with ambient lighting and switches that glow to life. Intricate Japanese Kumiko patterns on the front grille and door inserts, show that tradition can also inspire the future.

A welcoming start

ARIYA welcomes you from the start with the memory seat function⁽¹⁾. Feel at ease right before stepping into your car.

Light & shadow

A traditional Japanese Kumiko pattern signature is incorporated in several elements of the car. In the interior door inserts, it plays between light and shadow.

Haptic Touch

The Japanese concept of sei, or "clever treatment of design or function" is represented by haptic controls that provide a tactile response.

20" Alloy Wheels with aero cover⁽¹⁾

Protect your wheels and leave an impression with these striking aero wheel inserts.

(1) Features available depending on version, as standard or only as option (at an extra charge).

Go zen with Japanese inspired design

With a flat floor and a relaxing, open vibe, this is a completely new type of car interior. It's also a perfectly executed paradox – while ARIYA's design offers a sleek compact exterior, inside, its cabin is one of the most spacious in its class. The Zero Gravity front seats are supportive enough for spirited, high-performance EV driving, yet comfortable enough to spend more than a few minutes of downtime in them.

Open up your possibilities

True to its crossover status, ARIYA is designed to make room for whatever is on the agenda. Even with a full house, the generous cargo area can easily handle luggage for a weekend getaway. For the most cargo space, simply fold down the 60:40 split rear seats. And when it's time to get messy, use Nissan's Full Trunk Protection⁽¹⁾ to protect your boot against spills and mud. One more trick, in case your hands are full – an easy kick under the bumper and the hands-free power tailgate opens right up.

UP TO

---------------------------	-----------------------------	------------------------------

(1) Features available depending on version, as standard or only as option (at an extra charge).

Technology that plugs into your senses

Chances are, you've never experienced anything quite like ARIYA. Instead of traditional buttons the controls light up when pressed, react with haptic feedback, then dim afterward, almost disappearing into ARIYA's serenely designed interior. The Integrated Display Interface features dual 12.3" screens that are breathtaking to see and simple to use. Communication is seamless, thanks to next-generation Intelligent personal assistance technology. And with the Intelligent Route Planner, you can stay on course and on schedule.

- Haptic touch controls
- Integrated display interface
- Intelligent personal assistance technology
- Intelligent route planner
- Wireless mobile charging⁽²⁾

(1)Features available depending on version, as standard or only as option (at an extra charge).
(2)Designed to the Qi charging standard & optimised for Qi certified devices.
To use the NissanConnect services you need a NissanConnect user account and have to register and log into NissanConnect Services app with your username and password. To use the free NissanConnect Services App, you need a smartphone with a compatible iOS or Android operating system and a SIM card with data option with an existing or separate mobile phone contract between you and your mobile service provider.
All services are subject to mobile network coverage. Services may feature a free period, but will require paid subscription when this free of charge period elapses.

Drive, work, just relax – it's up to you

Adapt the ARIYA's unique interior to your needs. Push a button and watch its power-sliding centre console⁽¹⁾ move backwards and forwards to personalise your space. ARIYA can even save your settings, and those of an additional driver, for even more convenience. Add an EV platform that offers a completely flat floor design for a lounge-like interior, and ARIYA's cabin is the perfect space for precious "me time". Need a charge? Wireless charging for your compatible smartphone keeps your cabin tidy and your phone topped-up on the go.⁽²⁾

Create your own digital landscape

INTEGRATED DISPLAY INTERFACE The dual dynamic 12.3" screen displays form a single horizon. Arrange your display and personalise to your preference with music, maps, and more.

HEAD-UP DISPLAY⁽¹⁾⁽²⁾ This intuitive display positions vital information within your line of sight – your current speed, the speed limit, and your upcoming turn hover over the road

INTELLIGENT ROUTE PLANNER⁽³⁾ Plan your journey from anywhere, add it to your calendar and sync it with your ARIYA remotely. Available on the NissanConnect Services smartphone app, Intelligent Route Planner has been designed with electric vehicle journeys in mind and considers factors such as remaining battery level, road incline levels and more to calculate your best route. The Infotainment system can guide you to charging spots along your way and even notify you of their availability before you arrive.

⁽¹⁾ Feature available depending on version, as standard or only as option (at an extra charge).

⁽²⁾ Head-up unit is a convenient feature that displays key information on the windscreen, so that you can have them in view while maintaining your full attention on the road.

⁽³⁾ To use the NissanConnect services you need a NissanConnect user account and have to register and log in to NissanConnect with your username and password. To use the free Nissan Connect App, you need a smartphone with a compatible iOS or Android operating system and a SIM card with data option with an existing or separate mobile phone contract between you and your mobile service provider. All services are subject to mobile network coverage. The use of NissanConnect on-board internet is made possible via an integrated wireless internet connection. Data packets are to be obtained via selected external mobile communication providers in accordance with their terms and conditions (depending on the availability in your country). For further information, please visit www.nissan.co.uk/owners/nissan-ownership/nissan-connect-services-apps and your Nissan Dealer. Services may feature a free period, but will require paid subscription when this free of charge period elapses.

Let ARIYA simplify your life

ARIYA is your partner as you explore the world, with connected tech that advances and simplifies your driving experience. The power of speech means you can say "Hello Nissan", and ARIYA responds to your request. Your smart home and ARIYA can also have a seamless conversation. And customizable displays let you personalize your digital touchpoints for your own journey.

GOOGLE ASSISTANT AND ALEXA COMPATIBILITY⁽⁴⁾⁽⁷⁾

Use NissanConnect Services car capabilities to manage your vehicle remotely by voice command from the comfort of your home.

ALEXA BUILT-IN⁽³⁾⁽⁷⁾

Use your smart home devices, listen to your playlists via Amazon Music and do on-the-spot shopping.

NISSAN VOICE CONTROL⁽³⁾

Say "Hello Nissan" to make a call, send text messages, change the radio or set a destination.

IN-CAR WIFI⁽⁵⁾

Turn your car into a Wi-Fi hotspot® for the ultimate on-road connectivity experience.

APPLE CARPLAY® & ANDROID AUTO™⁽⁶⁾

Mirror your favourite app on your car touchscreen.

For optimal use, we recommend to use the genuine manufacturer cable.

⁽³⁾ Intelligent Route Planner, Alexa Built-in and Voice Control are available free of charge for a period of 12 months and then available for a fee depending on model and/or grade. For more information, please contact your Nissan dealer.

⁽⁴⁾ Free services (Nissan on Google Assistant, Driving History & Analysis, Nissan Help & Assistance, Breakdown Assistance) are available free of charge for a period of 7 years, depending on model and/or grade. For more information, please contact your Nissan dealer.

⁽⁵⁾ In-Car WiFi is always a paid service available on subscription. For more information, please contact your Nissan dealer.

⁽⁶⁾ Apple CarPlay® and Android Auto™ are available free of charge, depending on model and/or grade. For more information, please contact your Nissan dealer.

⁽⁷⁾ Features may not be available from vehicle launch

The feature responsiveness and use can be impacted when car is receiving a bad signal. For optimal use, please make sure your car is under good network coverage.

Connecting a mobile phone to use NissanConnect should only be done when the car is parked safely. Use of the system should always be in accordance with the rules of The Highway Code. Drivers should only use the system when it is safe to do so. Users should be aware of the potential for hands-free technology to distract attention from the road, which could impact on having full control of the vehicle.

Apple CarPlay is trademark of Apple Inc., registered in the U.S. and other countries. Android Auto and the Android Auto logo are trademarks of Google LLC.

Amazon, Alexa and all related marks are trademarks of Amazon.com, inc. or its affiliates.

e-4ORCE

DUAL MOTOR ALL-WHEEL DRIVE

Reinvent the all-wheel drive experience. Now 100% electric.

ARIYA's e-4ORCE⁽¹⁾ dual-motor All-Wheel Drive powertrain offers more than just an awe-inspiring driving experience. It combines a balanced, smooth ride with stable dynamics, reduced pitching on the road and increased passenger comfort, especially in stop start city driving.

Movement is effortless. Power, seemingly limitless. Press the accelerator, and e-4ORCE responds astonishingly, propelling ARIYA up to speed with remarkable force and poise. Need to get through bad weather? e-4ORCE precisely meters out power to each of its wheels, individually, so you can navigate slippery roads with more confidence.

Dual motors, placed front and rear create perfect 50/50 weight distribution. Each produces up to 300Nm of torque for instant acceleration and balanced power delivery to all four wheels. With the addition of individually controlled braking for each wheel, e-4ORCE All-Wheel Drive offers seamless and controlled power for stability, enhanced cornering and an electric drive.

Driving modes

ARIYA comes with up to 4 driving modes to deliver the best performance in any situation.

IN 2 WHEEL DRIVE CONFIGURATIONS,
3 DRIVING MODES ARE AVAILABLE:

STANDARD

Enjoy the perfect balance of responsive performance and efficient driving – ideal for all your day to day journeys.

ECO

Go lightly, with softer acceleration for better economy. ECO mode is ideal for longer adventures.

SPORT

Feel the surge of exciting performance, with powerful acceleration for a more dynamic drive.

WITH e-4ORCE, AN ADDITIONAL DRIVING
MODE IS AVAILABLE:

SNOW

Stay confident and in-control in the winter, with smooth acceleration from take-off for assured grip in snow and slippery conditions

(1) Features available depending on version, as standard or only as option (at an extra charge). You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply. For terms and conditions relating to Nissan technologies, please contact your Nissan dealer or www.nissan.co.uk/techterms

Safety that watches out for you

ARIYA has been designed to protect you with advanced safety technologies. Systems that watch the road, alert you to hazards and can even step in to help avoid or reduce the impact of a collision

INTELLIGENT 360° AROUND VIEW MONITOR
Provides a virtual 360-degree scene of the car in bird's-eye view to facilitate manoeuvring. It detects moving objects in the surroundings for stress-reducing and enhanced confidence driving

INTELLIGENT FORWARD COLLISION WARNING
This system detects a braking car 2 vehicles ahead to prevent from multi-car accident by raising an alert.

INTELLIGENT BLIND SPOT INTERVENTION
Boost your vision: the system will warn you if there are vehicles in the blind spots diagonally behind the car and will apply corrective braking to bring the vehicle back into the lane if you attempt to move into the path of a detected vehicle

INTELLIGENT REAR VIEW MIRROR
The Intelligent Rear View Mirror system allows you to digitally see what is happening behind the car thanks to a built-in LCD monitor in the central mirror.

INTELLIGENT EMERGENCY BRAKING WITH JUNCTION ASSIST, PEDESTRIAN AND CYCLIST RECOGNITION
Monitors constantly the presence of vehicles, cyclists, or pedestrians in your way. The system warns the driver and applies brakes if there is any danger ahead and if it is necessary. Junction Assist improves safety at intersections by reducing the risk of collision with upcoming traffic.

REAR AUTOMATIC BRAKING
The system detects static objects and obstacles in reversing scenes and brakes if necessary to reduce the chance of a collision.

You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply. For terms and conditions relating to Nissan technologies, please contact your Nissan dealer or www.nissan.co.uk/techterms. Feature available depending on version, as standard or only as option (at an extra charge).

With ProPILOT, you're in safe hands

ProPILOT with Navi-link⁽¹⁾ In addition to following the flow of traffic, ProPILOT with Navi-link⁽¹⁾ helps keep you centred in your lane, even through gentle curves. By linking with the navigation system, it can also anticipate what's ahead – sensing speed limit changes to adjust your drive accordingly and exit slip roads to help slow you down as you leave the motorway.

ProPILOT Park⁽²⁾⁽³⁾ Tight parking space? Push the ProPILOT Park button⁽²⁾ and ARIYA will take over steering, accelerator, brakes and drive. Watch as ARIYA glides right into the spot – whether it's bay or parallel parking.

e-Pedal Step⁽³⁾ Experience a more intuitive way to drive. e-Pedal Step lets you choose, with the option to accelerate and decelerate effectively with just the accelerator pedal.⁽¹⁾ Meanwhile leaving the brake pedal for harder braking and coming to a complete stop.

(1) ProPILOT is an Advanced Driver Assist technology but cannot prevent collisions. ProPILOT is intended for "Eyes on/Hands On" for highways only (road separated by barriers). Navi-Link supports traffic sign recognition which may not detect and read all traffic signs in all conditions. Drivers should monitor all traffic signs and obey traffic laws. It is the driver's responsibility to stay alert, drive safely and remain in control of the vehicle at any time. For details, please check www.nissan.co.uk/techterms.

(2) Feature available depending on version, as standard or only as option (at an extra charge).

(3) You should not rely solely on driver convenience features. Some features may not work in all conditions and circumstances. Speed and other limitations apply. For terms and conditions relating to Nissan technologies, please contact your Nissan dealer or www.nissan.co.uk/techterms

Go there with confidence

This refined 100% electric crossover may be brand new, but ARIYA is infused with Nissan's long history of know-how in EV development. Spend more time on the road with advanced battery technology that allows fast charging, and go wherever the road takes you, with a Europe-wide network of charging stations. Whether you choose two-wheel drive or e-4ORCE all-wheel drive, charge up and explore freely.

CHARGE SMART

Schedule your home charging from your smartphone and choose times when electricity rates are lower. With the NissanConnect Services app, you can set charging to start while you sleep, then wake up to a fully charged ARIYA, ready to go.

CHARGE AT HOME

With a dedicated 240-volt wall charger, you can plug into the easy life and wave goodbye to the petrol pump. You can also plug your car into the wall from a domestic home socket, just like a laptop or any other device, and the battery will top-up as required. If your property has a 3-phase electricity supply⁽¹⁾, ARIYA with the 22kW on-board charger can be charged at the maximum permitted supply of the electricity grid provider through a high power wallbox option. This increases charging speed from standard 7kW charging at up to 10miles (of range) per hour to 60 miles (of range) per hour for 22kW charging⁽¹⁾.

	Battery charge (10-100%) in as little as		
	Wallbox — 22kW	Wallbox — 74kW	Domestic Plug — 2.3kW
63kWh	3,5h	10h	34,5h
87kWh	5h	13.5h	48h

⁽¹⁾ Please check with your local electricity provider to see what's available in your area.

CHARGE ON THE GO

Hit the road with a wide range of charging options on the way. Plug into a 480V CCS rapid charger (DC 130kW) and enjoy 20%-80% battery charge in as little as 30 minutes⁽²⁾.

INTELLIGENT ROUTE PLANNER

Intelligent Route Planner will also guide you to one of those charging points with most efficient routes & chargers on the way to your final destination.⁽³⁾

CHARGE EASY PAY MONTHLY

You can spread the cost of your home charger and installation with your monthly vehicle instalments, making it easy and affordable to charge your EV at home. Speak to a member of the Nissan dealership team to find out more.

⁽²⁾ Figures quoted are for 63kWh and 87kWh batteries. Charging speed and time is dependent on various conditions, including charger type and condition, battery temperature as well as ambient temperature at the point of use. In cold climates, the use of on-board battery heating may be required to specifically improve quick charging speeds. Indicated quick charging time requires use of a CCS charger. The Nissan ARIYA is equipped with charging safeguards to protect the battery during repeated quick charging sessions in a short period of time. The time taken for successive quick charging can take longer if the battery temperature activates the battery safeguarding technology.

⁽³⁾ To use the NissanConnect services you need a NissanConnect user account and have to register and log into NissanConnect Services app with your username and password. To use the free NissanConnect Services App, you need a smartphone with a compatible iOS or Android operating system and a SIM card with data option with an existing or separate mobile phone contract between you and your mobile service provider. All services are subject to mobile network coverage. Services may feature a free period, but will require paid subscription when this free of charge period elapses.

Three unique versions of ARIYA that totally transform driving

The beauty of ARIYA is more than skin deep. It is a refined 100% electric crossover that is available in three distinct personalities. Whether you crave driving excitement, adventure-worthy capability, or long-haul range, or something in-between, there is an ARIYA for you.

2 WHEEL DRIVE

ARIYA 63kWh

Battery size	63kWh
WLTP combined range ⁽¹⁾	Up to 250 miles
Acceleration [0-60 mph] and top speed	7.5 s - 100 mph
Power and torque	160 kW - 300 Nm
Electricity consumption WLTP combined cycle	17.7 kWh / 100 km
Peak Charging Power ⁽²⁾	AC 7.4kW (optional 22kW) / DC 130kW

ARIYA 87kWh

Battery size	87kWh
WLTP combined range ⁽¹⁾	Up to 329 miles
Acceleration [0-60 mph] and top speed	7.6 s - 100 mph
Power and torque	178 kW - 300 Nm
Electricity consumption WLTP combined cycle	18.2 kWh / 100 km
Peak Charging Power ⁽²⁾	AC 22kW / DC 130kW

ALL-WHEEL DRIVE DUAL MOTOR

ARIYA e-4ORCE 87kWh

Battery size	87kWh
WLTP combined range ⁽¹⁾	Up to 310 miles
Acceleration [0-100 km/h] and top speed	5.7 s - 124 mph
Power and torque	225 kW - 600 Nm
Electricity consumption WLTP combined cycle	19.3 kWh / 100 km
Peak Charging Power ⁽²⁾	AC 22kW / DC 130kW

⁽¹⁾ All figures excluding e-4ORCE 87kWh derivatives are fully homologated and were determined under the new Worldwide harmonized Light Vehicles Test Procedure (WLTP) test cycle. WLTP figures shown are for comparability purposes. Actual real world driving results may vary depending on factors such as the starting charge of the battery, accessories fitted after registration, weather conditions, optional equipment, maintenance, driving styles and vehicle load. 87kWh e-4ORCE derivatives information is based on internal testing data and is pending full homologation in 2022. ⁽²⁾ Figures quoted are for 63kWh and 87kWh batteries. Charging speed and time is dependent on various conditions, including charger type and condition, battery temperature as well as ambient temperature at the point of use. In cold climates, the use of on-board battery heating may be required to specifically improve quick charging speeds. Indicated quick charging time requires use of a CCS 2 charger. The Nissan ARIYA is equipped with charging safeguards to protect the battery during repeated quick charging sessions in a short period of time. The time taken for successive quick charging can take longer if the battery temperature activates the battery safeguarding technology.

More comfortable. More capable. More you

Choose from a wide range of accessories to enhance your style and protect ARIYA. From Towbar to Styling items, Exclusive Mats and much more to emphasise ARIYA unique design and even more extend a luxury feeling.

Service Plans

The Nissan Service Plan is a scheduled maintenance service covering all mandatory routine technical operations and vehicle checks. Relax knowing your car will be serviced by Nissan trained technicians using only genuine and quality approved parts.

Extended Warranty

Why not relax and enjoy the ride for a bit longer knowing you can get things fixed when you need to? At Nissan, we let you extend your warranty for a longer period of time. To do this, contact your preferred Nissan dealer before your current warranty expires. You can even extend your warranty if your original warranty has expired. Again, you'll need to get in touch with a Nissan dealer, this time to get your ARIYA examined before the purchase is completed. Your vehicle also needs to be less than 10 years old and have covered no more than 100,000 miles. Available at participating dealers only.

Figures shown are indicative and shown for comparability purposes only. All ranges are fully homologated as per the Worldwide Light Vehicle Test Procedure (WLTP). Actual real-world driving results may vary. The range figures may vary depending on factors including the starting charge of the battery, accessories fitted after registration, weather conditions, driving styles and vehicle load. The other figures shown are based on internal testing data of battery and drive-train variants and may vary depending on multiple factors such as optional equipment, battery condition, climate control, maintenance, driving behaviour and non-technical factors like weather conditions, actual route etc. Information does not constitute part of the offer. Nissan expressly reserves the right to modify at any time.
